

Special tests

SUB - STRATA INSITU TEST

Noble Geo-Structs Pvt. Ltd. is a leading Geotechnical Consulting and contracting firm. The range of our services, quality engineering and competitive prices have made us one of the fastest growing companies of its kind in India.

The insitu tests that yield the parameters that are characteristic of insitu state of stress and more realistic are realized from the field tests.

The Following tests are performed on field.

Earth Resistivity Test

Static plate load test

Block Vibration Test

Field Vane Shear Test

Flat Jack Test

Cyclic plate load test

Piezometer

Topographic survey

Schmidt hammer

Rapid moisture content

Density of sand replacement

Field Bearing Ratio

Packer permeability test

Dynamic cone penetration test

Crosshole

Standard penetration test

Ultrasonic pulse velocity
